

Frame The City

"Underglass"

Visit "[Underglass](#)" on MotoLyrics.com

Your will it drifts forever in the open air
My head, it looks forever but there's no one there
Don't say, you'll wait forever then you disappear
I'll stay, I'll stay forever if you want me here

How can I accept your disappointment man

Cause i'm always thinking about it
It's not exact, it's no science man
I want it less than you ever have

Damn straight, cause there's always someone who'll
compare
I'd wait, I'd wait forever if you want me here
I will not accept your disappointment man..
But I'm always wrong about it

It's not exact, it's no science man
I will not accept your disappointment man
How can I accept your disappointment man..i wanted
less than you ever have
