It's done! The dark clouds have disappeared  
And almost like a miracle, they made way for the sun  
We've won - the battle won't go on  
The forces that endangered us - defeated by our trust

Right now, we're standing together side by side

Hooray ho! We've finally made it! We did what we had  
to do!  
Hooray ho! We've finally made it! We did what we had  
to do!

Then - the day it all began,  
We couldn't dare to hesitate - we went to meet our fate  
We all stood up and joined in unity  
And even if we risked our lives  
We never cared about the prize!  
Right now, we're standing together side by side

Hooray ho! We've finally made it! We did what we had  
to do!  
Hooray ho! We've finally made it! We did what we had  
to do!

We were so far away from home,  
Have you ever thought that we could be so strong?  
We never gave up hope,  
We never felt alone!

Hooray ho! We've finally made it!  
Hooray ho! We've finally made it! We did what we had  
to do!  
Hooray ho! We've finally made it! We did what we had  
to do!  
We did what we had to do  
We did what we had to do  
We did what we had to do
