Change your ways for them
It's all part of the game we play
Fight for what you could never ever win
Take a number welcome to LA
This is where it's led
I think about the ways,
The means, the in between
Completely lose my head
I think about the exit plan
Where does this end
You better keep your head down

My life is a warzone
Torn between what's right and wrong
My life is a warzone
There's no way out I'm gonna end up hurting someone

I creep around over egg shells down at that start
Don't know how I'm gonna make it today
Frustrated and losing myself in the part
Now the white coats come to put me away
Hanging by a thread
I live without time for what's real
These moments I must steal
I pick through what's left
I live without letting pain I feel
Have a chance to heal
You better keep your head down

My life is a warzone
Torn between what's right and wrong
My life is a warzone
There's no way out I'm gonna end up hurting someone

I've been waiting for better days
These hard times won't go away
I still haven't found my way
Well there's nothing left to leave behind
I won't give you what is mine
I'll be fine
You better keep your head down

My life is a warzone
Torn between what's right and wrong
My life is a warzone
There's no way out I'm gonna end up hurting someone
