Oooh!!!! Come to me
When you're all alone and feeling down
Come to me
When there's nobody else around
Come to me I'm still waiting, opened armed for you
Come to me
Cause I will comfort you
When you've no one to turn to
Well I'll be here just for you
Come to me
When your world is empty and cold
Come to me
When you need someone you want to hold
Come to me
In my arms I will keep you safe and warm
Come to me I will shelter you from the storm
I'm not one to pretend
Why can't you understand
That I love you
And I love you
And I need you
And I want you
And I love you
And I love you
And I need you
And I want you
Come to me
Oh baby I'm a lonely man
But if only I could learn to cry
Maybe then
The pain inside me would subside
Come to me
And I will comfort you
Show you what love can do
I'm a lonely man
Living in a world of dreams
I've got everything
But the one thing that I really need

Come to me I'll give you all the love you need
Cause I have love just for you
Come to me

When your world is empty and cold
Come to me
When you need someone you want to hold
Come to me
In my arms I will keep you safe and warm
Come to me I will shelter you from the storm
I'm not one to pretend
Why can't you understand
That I love you
And I love you
And I need you
And I want you
And I love you
And I love you
And I need you
And I want you
Come to me I love you
Love you
Love you
Need you
Want you
Oh baby I love you
Oh baby I need you
Oh baby I love you
Oh baby I need you
Oh baby I love you
Oh baby I need you
Oh baby I love you
Oh baby I need you
Come to me I love you
And I love you
And I need you
And I want you
And I love you
And I love you
And I need you
Come to me
