Chorus

If love had wings, like a bird has wings  
Oh I'll be on my way  
Across the night, this stormy night  
Oh I'll be on my way

While the city sleeps, I lie awake  
And I wonder when they'll be wondering  
Do I feel this way  
Down on the street, I hear two lovers laugh  
While my heart aches  
How I long for what they have  
Tonight the only thing between us  
Is the words we've yet to say  
And I wouldn't have to dream tonight away

Chorus

From the rooftops to the underground  
There's nothing but the lonely sound  
Of no one there  
I hear sweet singers singing songs of love  
Singing what I'm praying for  
Lord hear my prayer  
Oh I'm just staring at the ceiling  
And I'm looking at my life  
And what I see is something isn't right

Chorus

Tonight the only thing between us  
Is the words we've yet to say  
And I wouldn't have to dream tonight away

Chorus
