Spilled my heart drop by drop on the floor  
Am I closer than I was before?  
I'm trying to make some sense and trying to measure up  
Trying to do what matters most  
Some days I'm not so good, some days I'm not so bad  
Maybe that's just how it goes  
When it's not enough, I'll hold out for love

[CHORUS]

Maybe I'll fall down, get lost get found, then get back up  
I'll just keep on finding my silver lining and hold out for love...  
hold out for love

Take your time, take your time, breathe it in  
Just enjoying the moment you're in  
I wanna be the one who listens when you call  
Wanna be a better friend  
So why does it always feel like I'm just catching up  
Looking out to find the end  
When it's not enough, I'll hold out for love

[CHORUS]

When your heart's breaking... hold out for love  
When your faith is shaken... hold out for love  
When an angry word is spoken... hold out for love  
Gotta keep your heart open, open, open for love

[CHORUS]
