Here she comes again with that look in her eyes
I wonder what she has in mind for me this time
She tells me it's cool and that he doesn't know a thing
She knows that doesn't matter cause I won't stop a
thing

And we know
Someone will burn from this

You want it, you got it
But that's all you get
I'm getting off easy
and there's no regrets

You get what you ask for
Everytime
You know what you're in for
When you cross the line

There she goes again with her master plan
And I can't say that I completely understand
No matter what takes place we'll all eventually
Will have to realize that nothing comes for free

And we know
Someone will burn from this

You want it, you got it
But that's all you get
I'm getting off easy
And there's no regrets

You get what you ask for
Everytime
You know what you're in for
When you cross the line

I should've stopped this mess
At the very first kiss
But let's remember one thing
You're the one who started this

And we know
Someone will burn from this

You want it, you got it
But that's all you get
I'm getting off easy
and there's no regrets

You get what you ask for
Everytime
You know what you're in for
When you cross the line

You want it, you got it
You want it, you got it
You want it, you got it
You want it, you got it

You want it, you got it
But that's all you get
You want it, you got it
But that's all you get

You want it, you got it
But that's all you get
You want it, you got it
But that's all you get

You want it, you got it
You want it, you got it
