"One Last Kiss"

Visit "[One Last Kiss](#)" on MotoLyrics.com

I smoked while everyone else was on fire
I've run when everyone else was too tired
I've found hearts that burn with desire
I've found hearts that don't give a damn

Today is not enough for me
I want them all

One last kiss til' the next time
Then I'll be back down the road
Just what I'll find baby I just don't know

I tripped when everyone else was too grounded
I've danced while everyone else sat around
I've found hearts afraid of opinions
I've found hearts that don't give a damn

Today is not enough for me
I want them all

So give me one last kiss til' the next time
Then I'll be back down the road
Just what I'll find baby I just don't know
So give me one last kiss til' the next time
I'll come home dead on my feet
Baby I don't know when that'll be me

So give me one last kiss til' the next time
Then I'll be back down the road
Just what I'll find baby I just don't know
So give me one last kiss til' the next time
I'll come home dead on my feet
Baby I don't know when that'll be me
