Death from the Forest  
We will march - Death from the Forest  
We will end God's foolish reign  
Rising up - Death from the Forest  
Our swords hack human brain

Forest this is our Kingdom  
Here we dwell like animals  
Only wanted life in freedom  
But the humans hunted us

Battleaxe and Sword and Hammer  
With these weapons Death we bring  
Punishment, we will defend us  
Take their fucking scalps and skins

Carnage, brains and broken bones  
Get rid of the human scum  
Burn! Burn! Burn! left only in ruins  
Celebrate the revenge we've done
