Surrounded by disquiet  
Call from depth of soul  
Flare up an utter battle  
A storm coming from North  
Clouds come to blows  
Fighting till the death  
Approaching fear  
Wipe off memories

Heaven opens wide  
Vortexes gathered at once  
Every cloud form up  
Of a martial host  
In the sky, on the ground  
Frenzied wind, thunder. s roar  
Everywhere raging & droning  
Bright like day shafts abroad

Breams of clouds stand on end  
Water streams and sheaves of fire  
Symbols of the commencement  
Fall upon a sinful ground

Spirits of the night  
Celebrating wedding  
Winds are whistling melodies  
For their eerie dances  
Lost among a routine  
Experience trampled in filth  
Might of false and flattery  
Revive inferior dreams

Final symphony of sounds  
Proclaims downfall of the world  
Burning hot temptation. s thorns  
Thrust remains of abandoned soul  
Falling through the emptiness  
From enormous crag of reverie  
Blinded by a pitch darkness  
Disappeared in yawning abyss

Heaven battle flare up

Everything around screaming  
Drawing near a great wrath  
It. s reflection - inner fear
