

## Absurd "No Return"

Visit "[No Return](#)" on MotoLyrics.com

Where blow cold winds  
Embracin' mountain tops  
Where rivers flow into seas  
I dragin' alone

Emotions transpire  
Shadows above  
Voices are whisperin' me  
Tears from my eyes

Struggle with no one  
Nothing to lose  
Dawn succeed the sunset  
Day turns into night

Summon attracts me  
I walk to eternity  
Grief my fellow-traveller  
Forgotten past

That's what I need is  
That's what I searching for  
Everything else to nowhere

No return from the wasteland  
Forever  
Take me away  
By the path of frustration  
Soon I'll be there
