Come hear Jah sound
Spreading good vibrations all over this town
Come right your wrong for better days
Yeah ai
Put love in you
Put love in me
No matter what they do or say
We?ll be on our way

(Chorus)

The world is gonna see some better days
This feeling starts within yourselves today
Such a simple way a price to pay for better days

Herbal medication
Healing of the nation
Spreading good vibrations yeah yeah ai
No harm/hurt to be cool, from heating off too soon
So may I give love to you
Give love to me
No matter what the do or say
We?ll be on our way

(Chorus)

(Instrumental)

The brightness and passives rays of Jah sun
It's calling us it's calling us everyone
The waves and the surfin provide us the fun
It's calling us it's calling us
We?ll be un, under the sun
Hope for better days to come

(Chorus)

The world is gonna see some better days
This feeling starts within ourselves today
Such a simple way a price to pay for better days
