Hey girl, I just called to see how you're doin'  
It's been such a long time since I heard your voice  
Last night, I had another dream about the time you  
came into my life

But anyway the reason why I called (I called)  
Is to let you know that you're still in my heart, (my  
heart)  
And no matter how long we have been apart (been  
apart)  
That I still love you, baby I still love you

And there ain't nothing wrong with having someone  
else in love with me,  
Just like there ain't nothing wrong with having another  
love in you  
But every time I try to move on something in me tells  
me no,  
'Cause I still love you, baby I still love you  
Ooh ooh yeah

Chorus:  
When you need me, I will be there, baby  
If you're lonely, I will be here  
Don't you worry, I won't let you go, baby  
As long as you love me I will be there

I gotta tell you that I've had some sleepless nights  
(sleepless nights)  
I lay in bed awake just hoping you're alright (you're  
alright)  
But I had to do what I had to do  
And you had to do what you had to do  
Even though we know it might lead to change  
We both understand

There ain't nothing wrong with having someone else in  
love with me  
Just like there ain't nothing wrong with having another  
love in you  
But every time I try to move on something in me tells

me no,  
Cause I still love you, baby I still love you  
Ooh ooh yeah

When you need me, I will be there, baby  
If you're lonely, I will be here  
Don't you worry, I won't let you go, baby  
As long as you love me I will be there

Ahhhh (I will be there)  
Ahhhh (hey, I will be there)  
Ahhhh (I will be there, baby)  
Ahhhh (hey, girl I'll be there, hey)

When you need me, I will be there, baby  
If you're lonely, I will be here  
Don't you worry, I won't let you go, baby  
As long as you love me I will be there

If you need me, I will be there, baby  
If you're lonely, I will be here  
Don't you worry, I won't let you go, baby  
As long as you love me I will be there
