Woke up to embrace this jah morning
The weather is nice and coll today
See jah sun, brimming off with life
We wanna go dance dance dance woohoh

I realize I feel alive

Spread out your wings
And head to the sky
Me no worry, you no worry
Catch a fire

Never say that it's over it's over
Never say that never say
Never let them get in jah way
While the moon arisin' still survivin'
Thes yah herb, sacred herb make us feel alright
Alright alright alright now

I feel alive

Spread out your wings
And head to the sky
Me no worry, you no worry
Touch the sky
And it's clear we'll fly on fly on high

Good intentions come our way
Live your life to the full today
We no want contradictions

Spread out your wings
And head to the sky
Me no worry, you no worry
Touch the sky
And it's clear we'll fly on fly on high
