"Find Me A Boy"

Visit "[Find Me A Boy](#)" on MotoLyrics.com

So many friends that I happen to see have been
steadily falling in love
Oh how I wish it could happen to me and I'm asking the
stars up above
Won't you find me a boy, just a nice looking boy
Who will show me the way, who will teach me to say
"I love you, yes I do", and who'll promise me too
That he'll always be true, so that I'll never be blue

I just wish for a gentle boy, someone who's sweet and
kind
Just a nice sentimental boy, that's all that I'm really
longing to find

So many friends that I happen to see have been telling
me all about love
Oh how I wish it could happen to me is the only thing
I'm thinking of

So I'll find me a boy, just a nice looking boy
Who will show me the way, who will teach me to say
"I love you, yes I do", and who'll promise me too
That he'll always be true, so that I'll never be blue

So I'll find me a boy, just a nice looking boy
Who will show me the way, who will teach me to say
"I love you, yes I do", and who'll promise me too
That he'll always be true, so that I'll never be blue.
