B.Christopher: I remember you in cine film
the sunshine always burst the cloud
the smell of cut grass fills the sky
just like the birds of mid July

F.Hardy: I remember you in cine film
I fell in love to easily
sometimes we stayed up through the night
walked through the streets electric light

B.C: My beautiful demon
F.H: my beautiful demon
B.C: flood lit veins and I inhale you
I'm missing the sweetest ghost
F.H: killed with silence
feels like I am
missing the sweetest ghost

F.H: I remember you in cine film
the way you ran to catch me out
B.C: do you think about it to
on days like these I think of you

F.H: My beautiful demon
B.C: my beautiful demon
F.H: I remember you in cine film
my beautiful demon
