If you should care for me, say it now  
If it could ever be, say it now  
If you could love me somehow, say it now  
Say it now if you could want my love  
Say it now if I'm what you're dreaming of  
Say it now, if you could love me somehow, please say it  
now

Through all my searches for a love so true  
I've never found anyone like you  
If you'll be mine to have and to hold, I'll never, no I'll  
never let you go

If you could say "I love you", say it now  
If you'll always be true, say it now  
If you could love me somehow, say it now  
Say it now if you could give me a chance  
Say it now if we could find romance.
