I'm gonna give you till the morning comes

Till the morning comes, till the morning comes

I'm gonna wait until the morning comes

Till the morning comes, till the morning comes

I'm gonna wait until the morning comes

Till the morning comes, till the morning comes

I'm gonna wait until the morning comes

Till the morning comes, till the morning comes

I'm gonna wait until the morning comes

Till the morning comes, till the morning comes.
