"Round Eyes Of Blue"

I'd love to spend an evening
With your round eyes of blue
And keep you in my arms
The whole darn night through

And with you in my arms,
The night would slowly drift away
And we'd doze off a love dream
Followed by a brand new day.

Well such round eyes of blue
Are only a very few
And that's why I love to
Dream a love dream with you.

And my little darling,
On that brand new early day
The sun will shine on those
Love dreams as it fades away.

But before midday comes to bay
We'd go on our separate ways
And be together once again
By the end of that day.

Well such round eyes of blue
Are only a very few
And that's why I love to
Dream a love dream with you.

An evening will come again
And with your round eyes of blue
I know you'll be in my arms
The whole darn night through.
