I don't wanna stay, stay with you tonight  
cause the words you say, really break my heart  
I don't wanna stay and cry another day  
because love should not be this way

So open up you eyes tonight  
I'll tell you what its all about  
Don't you see how love is meant to be

Don't tell me lies angels cry tonight  
so tell me no more lies  
Don't you hurt a faithful heart and tear it all apart  
Can't take it anymore

I don't want to think, that love is just a game  
would it be so strange if we would never end  
I don't wanna say goodbye to love again  
but this time love has passed us bye

So open up you eyes tonight  
I'll tell you what its all about  
Don't you see how love is meant to be

Don't tell me lies angels cry tonight  
so tell me no more lies  
Don't you hurt a faithful heart and tear it all apart  
Can't take it anymore

Solo

Don't tell me lies angels cry tonight  
so tell me no more lies  
Don't tell me lies angels cry tonight  
so tell me no more lies
