### **"Dying World"**

Visit "[Dying World](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I watched the world outside my world  
So much confusion, pain and anger.  
It came to me it touched my mind  
The cruelty of the humankind

We can change the world today  
We can't go on like this no more  
We can change the world today  
We can't go on like this no more

It's a dying world  
We die from inside  
It's a dying world  
Oh can't you see

The technology takes care of us  
It's a new religion can't you see  
Reality is simply an illusion  
It feels like no one really cares

We can change the world today  
We can't go on like this no more  
We can change the world today  
We can't go on like this no more

It's a dying world  
We die from inside  
It's a dying world  
We're falling apart

It starts with you it starts with me  
We can stop this evil game we're playing  
Destruction of the human mind  
We have to fight now to survive

We can change the world today  
We can't go on like this no more  
We can change the world today  
We can't go on like this no more
