Every time When I think of you it hurts
All the memories of things we shared it fades
Without you it feel like nothing really matters
Everyday I feel the pain of living without you

Everyday it's just the same
Nothing change my love
Everyday nothing takes away
The sadness that I feel

Every time I close my eyes I dream of you
In my heart I still remember every moment
All those days without you they turned to years
Never thought you would disappear and leave me
forever

Everyday it's just the same
Nothing change my love
Everyday nothing takes away
The sadness that I feel

Rain keeps falling
Days are passing by
Everyday, Everyday, Everyday
IÂ´ll be waiting for a way for a way
Sweet memories

Everyday it's just the same
Nothing change my love
Everyday nothing takes away
The sadness that I feel

Everyday it's just the same
Nothing change my love
Everyday nothing takes away
The sadness that I feel
