Remember your face from a dream
saw it in the moonlight
an angel whispering my name
again and again

Do you read the book of love
read it carefully
and learn to give
your heart for real

Oh dont you know
the secret of love
is to give.
The secret of life
is to live.

I loved every word she said

kept them in my heart
words of wisdom never fade
thats what she said

Remember her eyes when I cried
she looked at me and she smiled
Dont let sadness bring you down
because of me

Oh dont you know
the secret of love
is to give.
The secret of life
is to live.
