This time I know it
The last words of goodbye
All my bags are packed
All the words are spoken
Mm.. nothing left for us to say

All those years we where trying
To find a better way to live
We talked and talked it over
There was nothing left to say

Time now to go on our own ways
Time now to go on our own ways

Maybe now is the right time
To go our separate ways
To leave the past behind
Maybe find another love

All those years we where trying
To find a better way to live
We talked and talked it over
There was nothing left to say

Time now to go on our own ways
Time now to go on our own ways
