"We Are The Heroes"

Visit "[We Are The Heroes](#)" on MotoLyrics.com

Into the fire I fly with you
Into the fire I fly
This is a new world for you and me
It's a new dimension, it's a new state of mind

We are the heroes from another world
We are the heroes in another time.

I walk with fire
I walk with you
I walk with fire

Into the darkness I run with you
Into the darkness I run
This is so far from the way I used to walk
It's so dangerous, it's so wild and free

We are the heroes from another world
We are the heroes in another time.

I walk with fire
I walk with you
I walk with fire

I lived for the moment I lived for the day
I was searching high, I was searching low
A strong wind is blowing a storm in the night
We are the heroes we fight till the end

Just fly me into the night
In your presence I am strong.
