Down by the beach today  
Not out of sight  
Just out of mind and memory  
Blind like the time before day  
And after the night

The reverend he came to say  
There is the white  
And there is the house that claims him  
Beyond the waves of the bay  
Between water and light

I'm watching between the grey  
For something not right  
Just out of mind and memory  
Blind like the time after day

And before the night  
Before the night  
Before the night

And if I'm right  
The urban blight  
Is not the problem  
Is not the problem  
Is not the problem
