I like that,  
(laughs) I saw how you did that scott (laughs)  
Like what's his name there  
Drummer of 15 drums there  
What's his name?

Excuse me now I've got a call  
I'll take this call from valhalla\*  
Please tell my friends from outer space  
You are my son you'll take my place  
And if the revolution comes  
I've got some good friends there

Take my place after all you are my son  
You take the moon I'll take the sun  
And by the way if the revolution comes  
Please take my rifles and take my guns  
A single bullet loaded in each one

And if you don't like my melody  
I'll sing it in a major key  
I'll sing it very happily  
And if  
Everybody is  
All aboard  
Let's take it back  
To that minor chord

You are my son you'll take my place  
Be still my friends from outer space  
I'll take this call from valhalla  
Excuse me now I got a call

I've got some good friends there  
Revolution comes  
A single bullet loaded in each one  
Please take my rifles and take my guns  
And by the way  
If the revolution comes  
Take my rifles  
Take my guns  
You take my place because you are my son

Excuse me now I'll take the sun  
I'll take my place in valhalla  
And if the revolution comes  
Please take my guns
