

Frank Black "Headache"

Visit "[Headache](#)" on [MotoLyrics.com](#)

This wrinkle in time, I can't give it no credit
I thought about my space and I really got me down
(got me down)
Got me so down, I got me a headache
My heart is crammed in my cranium and it still knows
how to pound

I was counting the rings
And I fell me into sleep
I peeked to see if you were way back when
I was counting the trees
Until a day when there was one
I'd hoped beneath, asleep is where that you had been

This wrinkle in time, I can't give it no credit
I thought about my space and I really got me down
(got me down)
Got me so down, I got me a headache
My heart is crammed in my cranium and it still knows
how to pound

Well, I found you
Maybe you can help me
And I can help you

This wrinkle in time, I can't give it no credit
I thought about my space and I really got me down
(got me down)
Got me so down, I got me a headache
My heart is crammed in my cranium and it still knows
how to pound
Got me so down, I got me a headache
My heart is crammed in my cranium and it still knows
how to pound
This wrinkle in time, I can't give it no credit
I thought about my space and I really got me down
(got me down)
