I've seen your picture all over the place I turn the corner and I see your face Vehicular billboards reserve you a space Flashing your smile at the entire human race

I went a ways on the road that I was on Through many days Many nights the miles went on And still the gaze of your faces carried on

I read the slogans of the sloganeer I smelled the engines of the engineer I saw the profits of the profiteer Put up your picture in the stratosphere

I went a ways on the road that I was on Through many days Many nights the miles went on And still the gaze of your faces carried on

I went a ways On the road that I was on And still the gaze Of your faces carried

Through many days Many nights the miles went on And still the gaze Of your faces carried

I went a ways On the And still the gaze Of your faces carried on
