Once my dear is not enough
Let me tell you about Jane she's the queen of love
She's the queen of love and she's the bane
Of we who know wherever she goes she will reign
She will reign (x2)
She reigns

Jane, she's the queen of love
Jane, she makes bumblebee love
You are the only one
Yeah that's just what you are

I've been so blue
Sleeping till noon, darling
Watching cartoons
But I could not ease the pain
I hear the phone line
And I hope that isn't you

Jane, she was my only love
Jane, and though our love is done
You are the only one
Yeah that's just what you are

Jane, she's the queen of love
Jane, she makes busybee love
You are the only one
Yeah that's just what you are

You are the only one
Yeah that's just what you are (x2)
