You believe it? You better, I got their number
Classic camcorder, I saw everything

Dinner plate specials, the shapes of cucumber
I'm going to the papers, I am going to sing

In the cool, cool night and in the middle of the day
I'm watchin' my back, I'm waitin' my visitation
From the men in black, are they gray or is it my own
nation?

I'm watchin' my back, I'm waitin' my visitation
From the men in black, are they gray or is it my own
nation?

It's been a good year, it's been a good summer
I wait for the door or that phone to ring

In the cool, cool night and in the middle of the day
I'm watchin' my back, I'm waitin' my visitation
From the men in black, are they gray or is it my own
nation?

Our little race, I don't want to fail, so just in case
I made you a copy and I put it in the mail

You believe it? I got their number
Classic camcorder, I saw everything

I'm watchin' my back, I'm waitin' my visitation
From the men in black, are they gray or is it my own
nation?

I'm watchin' my back, I'm waitin' my visitation
From the men in black, are they gray or is it my own
nation?

I'm watchin' my back, I'm waitin' my visitation
From the men in black, are they gray or is it my own
nation?
