Now Yin and Yang they got together at the bank
They had a young one and they grew him in a tank
Got to get to work, got to get them on the train
You know they got together and they're doing it again,
oh baby

Punk Rock City
Going up to Punk Rock City
Going up to Punk Rock City

And when this shit got started, it was never gonna stop
Designer genes for all the punks to live on top
Got to get to work, got to get them on a train
If you're never gonna die
You're never gonna come back here again

Punk Rock City
Going up to Punk Rock City
Going up to Punk Rock City
Punk Rock City

We're brother, sister and we are doing fine
Spend our whole life working in the mine
We get the train and we get ourselves to work
Then we have a little party
Then we have a little party, baby

Punk Rock City
Going up to Punk Rock City
I'm going up to Punk Rock City
Going up to Punk Rock City
Never die in Punk Rock City
Punk Rock City
