Oh Pacoima what you give to me?  
Little heartbreaker mercy me  
Her eyes are green and her hair is gold  
Desert day turn to evening cold

I've seen you some but I know  
I know that it's the end  
You're hanging 'round the farewell bend

You were broken and I fixed you up  
I turned your weeds into buttercups  
You were lost now you know where it's at  
You were a little thin now you're a little fat

You gave me love and though I know  
That it was not pretend  
I've seen you 'round the farewell bend

Oh Pacoima what you give to me?  
Little heartbreaker mercy me  
My eyes are red, my mood is black  
I called your name and you didn't look back

Where are you going  
And who did you befriend?  
I've seen you 'round the farewell bend

Where are you going  
And honey, who did you befriend?  
I've seen you around the farewell bend (x3)
