I had heard nobody singing and I had heard no rock  
and roll  
It was the kind of my upbringing  
That's right  
Now maybe you will see  
You never heard about me  
About me

Well you can write a novel and you can be a rise  
You can write me something awful  
That's right  
Money back guarantee  
You never heard about me  
About me

Well I heard your body singing and I heard your rock  
and roll  
And I do not get the meaning  
That's right  
Absolutely definately  
You never ever heard about me  
About me  
About me  
About me
