Once, my dear, is not enough
Let me tell you about Jane, she's the Queen of love
She's the Queen of love and she's the bane
Of we who know, wherever she goes she will reign
She will reign, she will reign, she reigns

Jane, she's the Queen of love
Jane, she makes bumble bee love
You are the only one
Yeah, that's just what you are

I've been so blue, sleeping till noon, darling
Watching cartoons but I could not ease the pain
I hear the phone line and I hope that isn't you

Jane, she was my only love
Jane and though our love is done
You are the only one
Yeah, that's just what you are

Jane, she's the Queen of love
Jane, she makes busy bee love
You are the only one
Yeah, that's just what you are

You are the only one
Yeah, that's just what you are
Yeah, that's just what you are
