Got to tighten my grip
Got to not let it slip anymore
Got to rise like the sun
Cause it's a long way to go
But I'm along for the ride

Stop playing with my toys
Stop smoking so much pot with the boys
Stop wishing there's an end
Cause it's a long way to go
But I'm along for the ride
Well it's a long way to go
Come along
Come along for the ride
Talk through eternity
Take what belongs to me
Its ok

Time to clean up my mess
Time to pack up my moms wedding dress
Time to take my sweet time

It's a long way to go
But I'm along for the ride
Well it's a long way to go
Come along for the ride
It's a long way to go
Come along
Come along for the ride
