Every time I hear your voice it's calling out my name  
I hear it in my head at night I cant get through the day

But you know that it's too late to try  
And you know that I cant turn back time

I'm walking out I hear you on your phone  
And you're screaming that I'm on my own

But I know that we will be together Anyway

In the morning we can work it out  
Then I'll show you what loves all about  
Cause I know that we will be together anyway

Just forget about what went wrong and things I meant  
to say  
Just forget
