When I wake up with the sun
I know what she's gonna say
Will you be back here again?
Close your eyes say goodbye
Don't look back to wonder why
And I'll think about last night

Baby don't you know that I
I don't need your lovin'
Baby don't you know that I
I'm still in love but I need to say goodbye

I'm out the door your on the floor
Tears are falling from your face

I'm in the car I'm driving far
Tears are falling from your face
I want to tell you how I feel
Tears are falling from my face
And ill think about last night

Round and round this path again
Like a ride that never ends
Till the day I see your eyes, your hair, that smile on
your face
Can't let go I'm back again
Cause I still feel, I still feel, I still feel
The same
