Ah-a-a-ah Utopia  
Ah-a-a-ah Utopia

Never thought there really was Utopia  
The land where every dream you dream comes true  
But last night when we shared a kiss  
I'm very sure of this  
That magic land came in view

And I saw golden skies  
And birds of paradise  
What a fool I'd be to let you go  
'Specially when I know that

Everybody searches for Utopia  
But still it's found by just a lucky few  
Darling oh how I hope and pray  
We'll stay in love this way  
Cause I found Utopia when I found you

And I saw golden skies  
And birds of paradise  
What a fool I'd be to let you go  
'Specially when I know that

Everybody searches for Utopia  
But still it's found by just a lucky few  
Darling oh how I hope and pray  
We'll stay in love this way  
Cause I found Utopia when I found you
