Hold It against You

And I won't hold it against you forever
And I won't hold it against you
And I won't hold it against you forever
And I won't hold it against you

She woke up early just to see me fall flat on my face
She didn't even warn me that I might not like what she
had to say

But I won't hold it against you forever
And I won't hold it against you
And I won't hold it against you forever Leave it out
And I won't hold it against you

And when the text came through I was ten feet high
And was missing you
It was a stupid situation in a stupid kind of place
And I would of given anything to wipe that smile from
off his face

But I won't hold it against you forever
And I won't hold it against you
Leave it out

And I won't hold it against you forever
And I won't hold it against you
So leave it out
And I won't hold it against you forever
And I Won't Hold It against You
Leave it
And I won't hold it against you
Leave it
Leave it OUT
