Rush Limbaugh's on the air again proving they're all  
guilty until proven...  
When he hits the captive rush hour they'll be laughing  
right along. Aunt &  
Uncle tune the radio in make my cousins in the car  
listen so someday they'll  
Be able to distinguish white from wrong. As they  
scramble, ramble...  
Scrambling from the cities too, Newark Detroit L.A. as a  
cue to the gun permit  
Suburbs swelling on the edge of any town. And on the  
radio callers have a  
Catch in their throats, maybe some tiny hint of some  
growing alarm as they  
Scramble, scramble, ramble... House to house drag  
brown faces into the shit.  
And on the radio white folks call up to joke so fed up  
with this liberal  
Government, set your am dial for white empowerment.
