"6 Mary & Child"

Once again the battle field is your body and those who
want control have laid
Down their terms in black & white and red all over they
keep the backstreet
Butchers in business as advertised from a bullhorn and
the all knowing man
Has set up his make-believe graveyard with tiny white
crosses for millions of
Make-believe souls someday I'd like to see a cross set
up for a real live
Human being who bled to death to maintain the
sanctity of mary mary & child
Scream the bigots who couldn't care less about human
life obey their self-
Righteous lies while your sisters & daughters die all
decisions are final your
Body is forbidden.
