"In A Deeper World"

Deify the universal coherence
Existence
The progeny of subsistence
Bearer of man, the heirs of amend

Soak into the stellar magnitude
Rise towards the sky

In a fiery union with nature
As one with every creature
Rove the windy mountains
Fall of man, drain in the sand

Rise towards the sky

In a fiery union with nature
As one with every creature
Rove the windy mountains
Fall of man, drain in the sand

... in a deeper world

Deify the universal coherence
