Change the alphabet from A to Z, teach the fish to walk
the sea,

Tell the stars and moon to shine at noon, but don't
change your mind about me.

Tell the flowers not to bloom at all, put the month of
June in fall.

I can see it through as long as you just don't change
your mind about me.

Till the day it ends, my life depends on your loving me
as you do,

And if I should find you've changed your mind, my
world would be through.

You can tell the tide to stand and wait, and teach the
sun to come up late.

Do away with spring, do anything but don't change your
mind about me.

I can see it through as long as you just don't change
your mind about me,

Till the day it ends, my life depends. my world would
be through.

You can tell the tide to stand and wait, and teach the
sun to come up late.

Do away with spring, do anything but, darling,
whatever may be,

Please don't change your mind about me.
