Weeell,. they have to have something new,
A dance to do for recreation so someone started
twistin',
A cat who was really hep, puts down a step
To new gyration soon, all the kids were twistin',
It didn't take long before the grown-ups were trying it,
Who's who was buying it all over town,
You see them, a-squirring and a-worming and a-
twistin' around,
It spread like a fire, its place became a craze
That rocks the nation now, everybody's twistin'.
(musical interlude)
Well oh well oh well oh well, they had to have
something new,
A dance to do for recreation so someone started
twistin',
And a cat who was really hep, he puts down a step
To new gyration soon, all the kids were twistin',
No, it didn't take long before the grown-ups were trying
it,
Who's who was buying it all over town,
You see them, a-squirring and a-worming and a-
twisting around
It spread like a fire, its place became a craze
That rocks the nation now, everybody's twistin'.
Here's a-hopping, and a stopping, and a poppin',
Sacro really, ax a bopping, everybody's twistin'. Bop!
