That we can read up Virginia, said of liberties within ya
Are the priceless things you oughta cherish
Some I know can take or leave it, talk a lot but half
believe it,
As for me I'll have it all or perish.
Though the man who said those words is gone now,
The thought behind his noble speech lives on now.
Free for all, we like the kind of living that is free for all.
And Lady Luck is giving out those priceless things,
A chance to sing and wake up every morning hearing
freedom ring,
Free for all, forget about your troubles, there is free for
all right here,
Just remember, son, life is so much fun, when it's free
for all.
