If you turn me down once more, I'll join the French  
Foreign Legion  
Bet you, they would welcome me with open arms

First you love me, yes, then you love me, no  
I don't know where I stand

Do we march together down the isle  
Or do I march that desert sand?

If you think I won't find romance in the French Foreign  
Legion  
Think about that uniform with all its charm

Just one more time, are you gonna be mine or au revoir  
cheri  
It's the French Foreign Legion for me

Now, if you think I won't find romance in the French  
Foreign Legion  
Think about that uniform with all its charm

Just one more time, are you gonna be mine or au revoir  
cheri  
It's the French Foreign Legion for me
