You can have my hand
You can have my hair
You can hold my arm
They are yours to share

From above my nose
To below my toes
From the bottom to the top
You can have all of me

You can have my coat
You can have my hat
You can pet my dog
You can tease my cat

Everything I got
No it's not a lot
From the bottom to the top
You can have all of me

I will try at one o'clock, two o'clock, three o'clock, four
To keep you satisfied
I will try those anything, everything, anything more
To hold you by my side

You can make me laugh
You can make me cry
You can change my heart
If you'll only try

By the stars above
You can have my love
From the bottom to the top
From the bottom to the top
From the bottom to the top
You can have all of me
