[Connie Haines alone]

[Even Superman supports the good health plan]  
[He knows what it will do, it's all up to you, it's all up to you]

Spread the health alarm to every town and farm,  
And preach the good health view, it's all up to you, it's all up to you.

[You'll find being healthy means more than a well-filled hearse]

What good's being wealthy when you can't buy a doctor or a nurse.

[When the job is done], we'll wind up number one

(musical interlude)

We need vitamins and medicines and beds to spare,  
[Places where the sick can go and get some care.]  
Lots of new equipment to combat disease

[Free examination for the kids and class,]  
A kid whose health is good will have a chance to pass.  
[If we do these thing and we will be the state]

(musical interlude)

Do your state a favor, the task is yours alone.  
[Be a real life saver, and chance is that you will save your own]

Get in there, get yourself someone to help.
