Saturday night is the loneliest night in the week
'cause that's the night that my sweetie and I
Used to dance cheek to cheek
I don't mind Sunday night at all
'cause that's the night friends come to ball
And Monday to Friday's a gas
And another week goes past

But Saturday night is the loneliest night in the week
I sing the song that I sang for the mem'ries I usually
seek
Until I hear you at the door
'til you're in my arms once more
Saturday night is the loneliest night of the week

Hey now, Saturday night is the loneliest night of the
week
And I sing the song that I sang for the mem'ries I
usually seek
Until I hear you rap on the door
Until you're in my arms once more
Saturday night is the loneliest night of the week
